What can be funded with bond proceeds and what is not permitted?

California Constitution, [Article XIII A, Section 1 \(b\) \(3\)](#), states the funding must be for "the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities." Bond Funds cannot be used for operating expenses such as teacher or general administrative salaries but can be used for the administration of the school construction process, including planning, design, engineering, and project management and control.
